

When did the fake of LRH-tech really start?

Most scientologists outside the Church are aware, that the doctrine and the materials of the Church are now thoroughly falsified. Obvious examples are re-issues of HCOBs and HCOPLs - which per HCO PL 24. Sept. 1970RA may only be written by L. Ron Hubbard – years after the announcement of Rons death. I have documented some bold falsifications on my website under the following links: [Squirrel-Altert](#)²

Also the objective of these falsifications became obvious. Besides a long row of alterations, of which the only purpose was, to let the public get used to "improvements"³, there are some, by which it becomes clear who the new ruler of Scientology is, as documented in the following essays:

- [IRS](#)⁴
- [Black Scientology](#)⁵

Some alterations are meant to protect the new ruler and to make sure, that his opponents in the Church can be thrown out of the game, all the way to a SP-declare and that the good old members "in good standing" break connection and so don't dare to listen to these people:

- [Link SP-Declares etc.](#)⁶

Finally there are the most essential alterations in the tech, which are meant to mess up and destroy Rons legacy to mankind:

To many readers nothing of this is new. New is the following ascertainment: when we have realised, that the Church was taken over by opponents and that they control the re-issue lines, and therefore are bold enough to falsify LRH-data (which is the biggest crime in Scientology!); when we realise, that the direction of the "Scientology-train" no longer is going from "south to north"¹⁰ but meanwhile is going from north to south (because in the meantime many measures of the Church – especially of HCO, but also of tech, especially on the solo levels – are bringing the members down), then we must of course ask ourselves, when did this change start ?!!

The exact determination, when those malevolent people started alterations, is very important, in order to avoid the two following mistakes:

1. When one takes this date too late (for instance on 1986 – Ron's alleged date of death¹¹), then one will keep already introduced false data in the technical training of auditors and case supervisors. On the other side Auditors can achieve maximum gains with their PCs, if they only use valid LRH-data. According to my observation do experienced Auditors of the Freezone get their jobs happily done, as they ignore false tech in their self determined usage. They are in a better situation than church auditors, who are forced by "KSW-determined" C/Ses to apply the newest releases of tech. –But as long as the false tech is forwarded in training materials, in any case the future generations of Auditors are being led astray: they maybe justly protest against verbal tech of their experienced supervisors and stick to the available materials. We would probably not – like in the Church – set course for the south but at least for the east. But that would be just bad enough! – As a result one undermines the certainty the PCs, Auditors and Case-Supervisors have in the stable workability of the tech, as long as we accept altered tech by the take-over-team of RTC & Co. Because Ron guarantees 100% results only when there is no deviation of his tech.

2. When one fixes this date to early (for instance some argue, that the tech is only ok until 1964 and that

¹⁰ Rons symbolism for the downside of the scale=south and the topside of the scale =north. When one looks at a globe, one can tell the downside=south from the topside=north. Perhaps also hia hint at the war of the united southern states=pro-Britisch-slavekeepers against the united northern states =fighters for the independance of the British Crown

¹¹ I doubt, that this cremated body was LRH's. No one of his family or his friends was allowed to see it. The body was cremated immediately after the Coroner's Work, although he found a lot of outpoints. The identity of the body LRH was only given by FBI and military records, which could be faked if the government was interested in the plot.

Ron himself began from there on to destroy the workability of the bridge), then one will deny himself essential and valuable improvements of the tech. Later on the OT-levels were developed, Standard-Dianetics, Int-Handling, PTS-Handling, expanded Dianetics and many other matters –it is non-survival to depart from that.

I have thus tried, to determine the exact time, when the alteration of the tech began. This can, in so far, not be done quite precise, because one can find even in the beginning 60ies "revisions of the tech" in HCOBs, which obviously have not been made by Ron, because they –compared with the original materials –contain grave mistakes. Ron complains in the class-VIII-lectures, that he had to ascertain, that in the 60ies some of his materials were falsified or even put aside. Therefore one must assume a gradual approach of influence of the opponents on the re-issue lines of the Scientology materials.

Even since 1950 secret services and psychiatrists have smuggled their agents into Scientology and tried to get them on high influential posts. This way a millionaire named Percell could take over the management of the Dianetics research foundation in 1951 and Ron lost his rights on the Dianetics book and the trademark Dianetics for years. This was a passing earlier-similar to the take-over by CST-RTC today. It shows, how the suppressors operate: they provide themselves with a legal basis, to take control of the opponents "shop". Then it failed, because Ron gave up the field of Dianetics and presented a new field named Scientology. He could evade the attack. Additionally in 1955 he also won on the justice level: he won back the rights to "Dianetics". This he celebrated with the book "Dianetics 55!", which is nevertheless for its content a pure Scientology-book, when one uses the current definitions on Dianetics and Scientology.

So there have always been partial successes of the opponents, like for example the quickie grades, with which the Scientology churches were destroyed in the late 60ies. Ron – due to the loss of his visum –had to leave England and by that lost direct control over over St. Hill and the issue lines. Ron rehabbed his control by the foundation of the Sea Org, who had to help him restoring ethics in the Orgs.

As a stable datum I have therefore for this work assumed, that Scientology has been integer as long as Ron was in control of his commlines to the orgs and individual Scientologists. Because as long as Ron could communicate to the Scientologists and they to him (2-way-comm!!!), he had an opportunity, to correct all kinds of attacks on the integrity of Scientology (mainly the materials: HCOBs, HCOPLs, books, tapes, courses, orders etc.).

In a "Fairytale" LRH described already in 1952 how his life and lwork would run and end. I have cited it here: [The Man and the Golden Ball](#)¹²

In the moment when he no longer could be informed by individual Scientologists about any alter-Is or when he could no longer make sure, that his communications (HCOBs, HCOPLs etc.) went out fully and unchanged to the

Scientologist, one must assume, that the thorough alterations could and did begin. So during his alleged 9 years in hiding from 1977 to 1986 he was not any longer in control of his commlines. The speculation, whether he died in 1977 or was imprisoned or lived a happy live on his own is without any importance regarding our goals as Scientologists. We just have to find out and decide, when the rewriting of the tech started and became the dominant factor in the materials.

Threefold measures.

Ron has made sure by threefold measures, that the authenticity of his communications can be traced:

1. Prohibition on verbal tech as in hidden dataline. In HCOPL 16. APRIL 1965 THE HIDDEN DATA LINE he writes:

"The whole of technology is released in HCO Bulletins and HCO Policy Letters and tapes I do and release. - I don't tell people anything in some private way, not even instructors.

...

There is no "hidden data line". To believe there is makes an ARC Break. - The apparency is somebody's pretence to know from me more than is on the tapes and in books and mimeos, or, brutally, somebody's alter-is of materials. This looks like a "hidden data line". It surely isn't. ...

Don't for heaven's sake mistake alter-is by somebody as evidence of a hidden line.

In Scientology we say "If it isn't written it isn't true". That applies to orders. Somebody says "Ron said to . . ." and on a veteran staff you hear the rejoinder "Let's see it". I've had raw meat walk into an org and say "Ron said I was to have 25 hours of auditing". And in the raw meat days of orgs, they sometimes were given it. So we have learned the hard way-"If it isn't written it wasn't said". - And that applies to anybody's orders, not just mine. - And on tech and policy, it's equally true. If it isn't in an HCOB or an HCO Pol Ltr or recorded on a tape in my voice, it isn't tech or policy.

Next time you hear a pretended order or a squirrel process attributed to me, say "If it isn't written or recorded it isn't true"."

(Remark: the entire new structure of the command lines in the Church of Scientology is based exclusively on such "Hidden Data Lines": because even now there are no HCOPLs as such – not even falsified ones –in which Ron supposedly has presented these command lines of the upper Int-Management: there is no Watch-Dog-Committee, no Commodore-Messengers-Org, no RTC, no CST. Those are all inventions of the new rulers, which are not based on any LRH-issue and in even in sharp contradiction to the policies on world-wide-management published even in the 1991-OEC Vol no 7 !!!¹³)

¹³ In the beginnings of the 90ies I studied in my Org the so called „Command Channel Course“ based on a blue booklet given out by the „Church of Scientology International“. There was defined RTC, CMO, WDC etc. pp but without any LRH reference!!!

¹² www.FreieScientologen.de/goldenball.htm and also in the Red Vols since 1991.

2. He has made available all important technical data in lectures: one can hear Ron's voice, as he informs us about his newest results of research. Since the 90ies exists a lot of attempts by RTC, to falsify these lectures, to erase complete passages or add a few words (example: PDC 20), but there are still enough older tapes on the market, who now are all being made available in digitalised form (WAV- or MP3-files), so that every body can obtain certainty about the authenticity of the technical fundamentals.

3. The HCOBs, HCOPLs and other written issues are all based on originals, which L. Ron Hubbard either wrote by hand or on his typewriter signed by himself. The publication orgs in the 70ies have been able to show at least reproductions of these originals, so that they could prove the correctness of their publications in this way¹⁴. – When these originals of a HCOB, HCOPL can no longer be presented, then they probably are forgeries! That was the line of the old "verbal data checklist": Every one had the right to take a look at the originals. Today these are put away by CST for eternity. As it is expected by 1.1er they say: "we preserve the original LRH-materials for eternity for mankind." But actually all LRH originals are secured against sceptical Scientologists. That is their definition of "preservation".

In determining the date I have to disregard the individual testimonies, because often these testimonies cannot be verified anymore and could for many reasons have been false: be it misleading testimonies of hostile agents, who deliberately want to occlude the date, be it testimonies of people, who want to cover up their doings with a little lie. Also the so called testimony of Mary-Sue Hubbard, she was last seen in 1978, can only be a rumour, because who could speak with

¹⁴ Yesterday on 2nd Aug. 2007 I wrote to the newsgroup IFACHat the following message on the subject of newly released and revised LRH-books by RTC: "I had a talk with a german Scientologist a few years ago. His name was Wolfgang Redtenbacher a german old-timer, who died last year.

Wolfgang was an exec at the publications org in Kopenhagen in the 70ies, which now is known as New Era Publications Int (NEPI). He told me, that in those times they had in Pubs from every manuscript of the LRH-books a photocopy to which they had to compare the newly typesetted and to be published book: word by word. These manuscripts were sometimes handwritten by LRH and sometimes by typewriter. But in case of the typewriter-written manuscripts every single page was handsigned by LRH so that they could be sure of the origin. Of course they did not had the originals, but photocopies of the originals.

He told me this, as he heard that since the 80ies these manuscripts were gone as he heard from NEPI-staffs. – Sorry, but my witness for this fact - Wolfgang - is dead now. But perhaps someone knows other older Pubs Staffs who can confirm this story. Because this story contradicts the myth of DM, that LRH did not control the publication of the books at all, that he just dictated them and then never mind again. And of course LRH would not sign every single page without proofreading it. That would give no sense. Perhaps these transcripts - if Ron dictated the books - deviate from the dictates. But that does not mean, that this is not in agreement with LRH, as he would have proofread them and correct any incorrectness by the communicated concepts, not by comparing them with the tapes. - Do you know any Pubs Org Staffs from the 70ies ?"- Today one could argue, that I just lie about these photocopies, but you can find out the truth with the help of the Internet Archive: Wayback Machine at <http://www.archive.org>: just look up this address www.FreieScientologen.de/en_seitwann.htm or even the german original www.FreieScientologen.de/seitwann.htm which was written and published in 2004. That is the original text on which this article is based and were I already published the existence of the photocopies. In 2004 without mentioning the name of Wolfgang Redtenbacher, as he was still alive and working in his own computer-security-business.

MSH since about that time! She even died a few years ago. I see this MSH testimony as a fake too.

The LRH-Lectures

With them we also found an important datum, to determine the wanted, precise date: what is the last lecture, where we can hear Ron's voice and put it to the test? Because Ron has given lectures since 1950 frequently, to inform us scientologists about his latest results of research. The last LRH-lecture, that can be bought is the following: on 13. Nov. 72 Ron gave the lecture "Diseases - Breakthrough" in the light of the Expanded Dianetics research. In the same year he gave 16 lectures (4 for the Expanded Dianetics and 12 ESTO-lectures).

I wrote a table¹⁵, in which I wrote down the number of lectures per year and added comments.

In 1975 he supposedly gave 22 lectures for a few chosen auditors on the New Vitality RD, which can only be studied in Flag. To me it's not known, if this course is still being delivered and if on it, the lectures can still be listened to. Perhaps these lectures are from Ron. But can we be sure, that they were not held a few years earlier and later published under the date of 1975 to prove his well being? It is odd, that these lectures are the only one in all the years since 1973 and only held in a small circle.

Class XII Pierre Ethier confirms on his website:

Another fascinating course I did was the "New Vitality Rundown".

Contrarily to statements made by uninformed people in Ron's org, the last set of Public Technical Lectures made by LRH was made in November 1975 in Daytona Beach, Florida to all Flag Auditors on what was called at the Time "The Special Rundown".

The course, which I did directly under the Supervision of the Snr C/S Flag Land base has the 22 LRH lectures Series from late 1975 for its core. I was pleasantly surprised when I listened in their Introduction that I was listening to a Master, not a Copy and therefore no editing of any kind had been made, including a number of passages, where LRH suddenly paused, after having made a statement with political or other unsavory ramifications, would say loudly to a messenger: "You will have to cut that off, boy!"

Since that year there is once in a while a so called Ron's Journal, in which Ron speaks to the Scientologists. In them are so many outpoints though, that one must assume, that these lectures have been falsified. The bulk of them are missing and not available any more. Also the meddling in the 1992-issue of the book "What is Scientology?" is striking, the number of tape recordings mentioned on the list in these years was set higher by putting in musical compositions (allegedly composed by L. Ron Hubbard) and older LRH-texts recited by other speakers produced on cassette.

By liberal calculation, at most the lectures till end 1976 are authentic and indicate a communication line of Ron. Cutting time sharp one can only take 1972 as date, because only these tapes can be bought by everyone in Scientology, be

¹⁵ www.FreieScientologen.de/lrhlectures.html

listened to and could be checked for authenticity. And only what is **real to you** is true! All else is just a believe in one or the other authority, is just verbal data and not what Ron told us: all Tech is available in HCOBs, books and tapes.

Well now, this is just a possible estimation, which gives a certain orientation, but does not allow clear satisfactory proof. Whereby one already asks oneself, why L. Ron Hubbard since 1973 would not have given public lectures anymore, which he loved so much and which also as a verifiable commline of Standard Tech has been so important!

My "commented list of his books over the years"¹⁶ shows, that the "Introduction to the E-Meter" from 1966 is the last non-fiction¹⁷ book written by himself. All later books are compositions of older materials by staff members. In the best case Ron has inspired and authorised the publication of these later books, but he did not write anything new for them. So this also does not bring us any closer, but now...

- I put together a statistic on the written output of LRH the author over the years based on the red and green volumes and published it here¹⁸. It shows, that the productivity of Ron **1973** suddenly went down from a Power trend to practically Non-Ex and stayed there until since 1978 were his inactivity was compensated by "writings of helpful staff members"¹⁹.
- The appointed successor of L. Ron Hubbard – his son and class 12 Auditor Quentin Hubbard²⁰ – is found killed in November 1976: camouflaged as suicide. With that the next became possible, to seize the power in the Church of Scientology after Ron's disappearance. Ron did not name another successor after his sons death: so was is also already "put aside"?
- The strategy by the US-government to overtake Scientology as documented in <http://www.sc-i-r-s-ology.pair.com/documents/ documentsindex.html> could be completed, when they were sure, that Ron no longer intervened. They would not have concluded their take over plot in 1977, when they had to take into account, that Ron could show up again, could be informed about all doings and could have started countermeasures. This plan is such a long term (more then a quarter of a century!) affair, that they had rather postponed another few more years, then to risk, that Ron points them out.

¹⁶ www.FreieScientologen.de/lrhuebuecher.html

¹⁷ Regarding the fiction books Mission Earth and Battlefield Earth: I have no doubt, that these are from Ron. But we can only **believe** the new management, that these were written in 1982. But it could also be, that Ron wrote them in his "9 missing months" in 1973 and that they were published later to proof his well being, when this was doubted by his son.

¹⁸ www.FreieScientologen.de/lrhstats.htm

¹⁹ David Mayo and his wife documented this fact in their letters, that in this year they and many others worked "for LRH" and published under his name. Their only commline to LRH was per telex!

²⁰ www.FreieScientologen.de/quentin.htm

From that point it is certain: Ron's commlines were cut for good in may 1977, otherwise he would have had the possibility to ward off, for instance, the dissolving of HASI or at least the consequences on the copyrights. If he still would be in comm, the IRS would have postponed their completion of their plan to a later point, to the time, where Ron could no longer stop it.

- The continuity of the bridge ends in 1977 as I showed in this link²¹. Sudden changes since 1978 I documented here: The first vital Step was the cancellation of the old OT-levels original OT 4 to 7: Link²² and the only way in which, clears can be made: with Power, R6EW and the Clearing Course.
- In November 1976 the prices of the CoS started to rise to a high level, so that the price alone keeps most people from the bridge and thus suppresses the Orgs. I give details in the article price engram²³, there I come to the conclusion, that Ron at the latest, in end of 1977, could no longer control his commlines.
- The Guardian Office (short GO) was established by Ron to defend Scientology against attacks. The Guardian Office was nevertheless practically defeated by the FBI on 8. July 1977 by a brutal razzia and confiscation of all GO documents and by prosecution of the GO staff. Ron could have been indicted too, does the reader believe, that Ron tried to escape this and went into hiding and that the FBI was not able to find him, although there was a commline between him and David Miscavige? I doubt that Ron was such a coward and that he would allow the taking over plot by his active behaviour.
- How ever it may be: some years later the GO was abruptly discontinued by David Miscavige through lies, a faked LRH-letter and force of arms. Extensive reporting about that you can find on the website of Mike McClaughry²⁴ who compounded a lengthy story about Scientology and made it public.

Conclusions

My conclusions from these data are, that L. Ron Hubbard lost definitive control of his commlines in, at last, 1977²⁵. For

²⁵ Some believe that 1977 is too late and that LRH was killed in his missing months in 1973 and was replaced by a Doppelganger, which explains the many reports of a very angry LRH in his last years on the apolly. That theory is also confirmed by the lack of photos of LRH in all the bibliographical works about him: the book "Pictures of a lifetime" and the several Ron Mags. You can only find photos of him up to 1972! Especially take a look at the "Ron the Photographer"-booklet: There you will find dozens of self-portraits: Ron and his newest camera (professional

that it plays in this analysis no role, whether he was already dead at that time or that he was imprisoned or that he was too ill²⁶, to care or that he was in hiding²⁷, what the new management wants us to believe. There has been much speculation about that and these speculations don't bring us any further. In December he was supposedly working on the tech -Filmshoots (Pro-TRs-Film), but none of the actors or technicians got to see him there, he gave his "directions per dispatch". I hold this for unreal and for a swindle. It was said that only the married couple Pat & Annie Broeker and "personal physician" Dr. Denk had access to LRH. His alleged death in Jan. 1986 was very staged and we were left with many open questions, as documented here²⁸

What takes us really further though instead of all these exciting speculations, is the analysis that Ron at least since 1977 no longer had influence on the further development of the tech and the policies. Because all changes could evidently take place without his permission or the possibility of correction since his death, one must assume, that this had already started since beginning 1978. Because the Broekers claimed to have been the exclusive commline between Hubbard and the church from 1977 till 1986. Until a year after Ron's death they were believed in the Church. But after that: even per the viewpoint of David Miscavige the Broekers were corrupt²⁹. So how could even a believing churchy assume, that any revisions of technical data since 1978 could be correct? Not to speak of a freezoner.

And per KSW this means that, that all these changes can not be considered to be standard tech . The issues and revisions starting 1977 can be, to my opinion, be divided into two categories:

First: well intended works by technical staffs, who wanted to consolidate the tech, make it then easier for new students, to get trained as an Auditor. These issues have the authority of a BTB, therefore they are definitely valuable, as long as they don't contradict LRH-issues. These issues have been promoted by the new management, to make it look like L. Ron Hubbard is still writing and also, to hide between them the issues of the second category. To those I reckon most NED-issues, FPRD, Prepchecking and NOTs and all the solo-level-alteris.

Secondly there are malevolent squirrels of the tech, which want to keep us from the Bridge to total freedom. To those I reckon the prohibition of Dianetics on Clears and OTs, the putting aside of Power, Power Plus, R6EW and Clearing Course, the claim, that NED makes real Clears now, the DCSI/CCRD, the change of the sequence of Dianetics and

photographers can tell you the date of the cameras and by this of the photo). And a real gimmick: Take a look at the last self-portrait: Ron and his camera at the end of the booklet!

Grades on the Bridge³⁰, the cancelation of the real OT-levels 4 to 7, the four falsified versions of OT 8 and last but not least: the current RPF and lots of other policies to control the scientologists.

One method of the RTC-Squirrels consists of replacing working LRH-tech by "newer HCOBs" with contradicting statements. Ron knew about this possibility of the black-revisions of tech and therefore wrote **that newer tech does not cancel older tech** . Because of this widespread false data that tech can be revised into its reverse state, I have quoted on my website large parts of this [HCOBs 30. Juni 1970](http://www.FreieScientologen.de/HCOBs_30_Juni_1970) ³¹

As a conclusion I call upon all Scientologists, to verify these presented data and to make their own estimate, as to how long Ron was in control of his commlines, to then return to the working tech, which Ron left for us until 1977. We should dig up the old course checksheets and restore these courses to their former glory and do a False Data Checking on all that false data, which was introduced since then by the new rulers in the Church.

This is an extensive but lucrative task: because we will be rewarded with a tech, that gives 100% results.

So we will win a tech, with which again real Clears and OTs can be made.
